Doctors For You - HR Manual / Employee Handbook 2014

VISION

“Health for All”

MISSION

Providing sustainable, equitable, effective and efficient health care services to the most vulnerable individual & communities

Guiding Principles - (building bricks which help an organisation achieve its Mission)

- Rapid response
- Reaching the unreached
- Accountable to our Partners, Donors & Communities
- Community Participation in decision making
- Neutrality & Non-Political

SCOPE

As an organization Doctors for You seeks to address the following issues:

1) Disaster Management:

At DFY, our aim is to enhance disaster resilience in South Asia by strengthening medical preparedness, early response capacities and sustainable health-care in the aftermath of a disaster.

DFY shall work in all the phases of disaster management cycle to ensure a disaster resilient community.

First Phase - Emergency Response

A life-saving phase, its aim is to ensure that an effective response - rescue efforts, fire fighting, emergency medical assistance and an evacuation procedure - is in place when a disaster has taken place.

Second Phase – Recovery

This phase involves rehabilitation and disaster-resilient reconstruction efforts as well as appropriate land use planning, industrial rehabilitation planning and livelihood support.

Third Phase - Prevention/ Mitigation

This phase focuses on efforts to prevent or mitigate damage when a disaster strikes. Among the activities related to this phase are the utilization of seismic resistant technology for rebuilding or retro-fitting, the construction of dikes, replanting of mangroves, forestation and the construction and operation of meteorological observation systems to help prevent and mitigate damage in the event of an earthquake, flood, landslide or storm.

Final Phase – Preparedness/ Readiness

As it is important for any country to be prepared in the event of a disaster, this phase is crucial as it places the importance of hazard maps, food and material stockpiling as well as the preparation of emergency kits, all vital factors that help to minimize the impact of a disaster.

The risk of disasters and its adverse impact can be reduced effectively if balanced attention is placed on all phases of the disaster management cycle.

Emergency Medical Response Team

DFY is involved in building rapid emergency medical response team for the acute early emergency phase of disasters and complex emergencies. The development of the Emergency Response Unit aims at achieving faster and better quality deployment through good planning and preparedness.

2) Public Health Strengthening

DFY is committed to strengthen Public healthcare system of India.

Primary Healthcare

DFY is committed to provide the quality primary health care services to neglected communities within our capacity and reach. We try to strengthen the health services as soon as possible post disasters as well as in poor performing districts of India.

Oral health care services

DFY is actively involved in the advocacy against the tobacco lobby to improve oral health care in India as well as to prevent oral cancers & other cancers related with Tobacco.

Reproductive Health

Maternal & child health is an important area of focus for DOCTORS FOR YOU. For pregnant women in vulnerable communities, especially in remote areas, specific needs relating to their health (and the health of their unborn babies) may not be met because of various factors such as a lack of facilities or a lack of skilled employees.

3) Capacity building & Skill development

Without skilled manpower we can't achieve our goal of Health for All. Lack of skilled and well trained man power is a major concern for India right now and we are committed to build the capacity of the nation by offering all sorts of skill development trainings, workshops and courses across India for this purpose.
