

## SITUATION REPORT GAUTAM BUDDH NAGAR, UP FLOOD 2023

July 14th, 2023

### HIGHLIGHTS

- From July 8th, 2023, several regions in northern India, including Uttar Pradesh, Haryana, Punjab, and Delhi-NCR, experienced severe rainfall, disrupting normal life. Additionally, the Yamuna river in Delhi witnessed a significant rise in water levels, surpassing the previous all-time high recorded in 1978 of 207.49 meters on July 12th, 2023 exacerbating the difficulties faced by the people.
- The Prime Minister inquired about the flood situation and directed the appropriate measures to be taken with the assistance of the Central government. Moreover, the water level of the Yamuna river began to recede from 208.63 meters on July 14th, 2023
- Yamuna river in Delhi reached a staggering level of 208.48 meters at the Old Railway Bridge and downstream crossed the danger mark of 200.60 meters downstream of Okhla Barrage around 11.45 am on July 13th, causing flooding in nearby streets and damaging public and private infrastructure and impacting lives of people. The Central Water Commission has labeled it an extreme situation.
- The District Magistrate of Gautam Budh Nagar inspected the submerged low-lying areas along the Yamuna river on an inflated boat to assess the situation
- The Lieutenant Governor of Delhi held a special meeting of the Delhi Disaster Management Authority to address the flood situation.
- The India Meteorological Department has forecasted heavy rainfall in Uttarakhand, Himachal Pradesh, and Uttar Pradesh in the coming days.
