Section III

Scope of Work

a. Project Scope

The project will address the following components, which are essential for the hospital's operational efficiency and long-term sustainability:

1. **Operating Theatre (OT) Renovation:**

- **OT Door Replacement:** The current OT door will be replaced with a medical-grade door that meets **infection control protocols** and ensures sterile separation between the OT and adjacent areas.
- **Wash Area and Washroom Renovation:** The wash area and adjoining washrooms will be upgraded to include touch-free fixtures, anti-bacterial wall coatings, and modern drainage systems to meet healthcare standards.

2. **New 10-Bed Ward Construction:**

- **Space Planning and Design:** The new ward will be designed to accommodate 10 beds, ensuring that each patient has adequate space for privacy, ventilation, and easy access to medical equipment and nursing staff.
- **Integration with Existing Infrastructure:** The new ward will be connected to the existing maternity ward and the hospital's central utility services, ensuring seamless operational integration.

3. **Electrical and Plumbing Systems:**

- **Electrical Overhaul:** The electrical systems across the hospital will be upgraded, focusing on critical areas like the OT, the new ward, and the maternity ward to ensure uninterrupted power supply and compliance with safety regulations.
- **Plumbing Upgrades:** The plumbing systems, particularly in the maternity ward and new ward, will be revamped to ensure sufficient water pressure, safe sanitation, and the proper disposal of waste water.

4. **Laundry Area Upgrade:**

- **Roofing and Flooring:** The laundry area will be roofed to protect it from external weather conditions, and the flooring will be upgraded to withstand heavy usage and ensure easy cleaning and maintenance.

5. **RO Water Purification System Installation:**

- **RO Plant:** Installation of an 80-liter **Reverse Osmosis (RO) water purifier**, ensuring that the hospital's water supply meets health and safety standards for drinking and medical use. The plant will be strategically placed to ensure easy access for staff and patients alike.

6. **IEC Material Placement:**

- **Health Communication Strategy:** IEC materials related to hygiene, infection control, and best health practices will be displayed at critical locations throughout the hospital to educate and promote health literacy among patients and staff.

b. Project Monitoring and Monitoring Indicators

The project's progress will be monitored through key performance indicators (KPIs) to ensure adherence to technical specifications, timelines, and overall quality. Monitoring will focus on the following indicators:

- **Infrastructure Compliance:** Verification that all civil, electrical, and plumbing works adhere to relevant healthcare infrastructure standards.
- **Operating Theatre Functionality:** Post-renovation assessment of OT functionality, including infection control measures, ventilation, and workflow optimization.
- **Ward Capacity and Comfort:** Assessment of patient comfort, ward occupancy, and efficiency of the new 10-bed ward in terms of space management and medical equipment accessibility.
- **Water Quality:** Installation and operational efficiency of the RO system, ensuring compliance with health standards for purified water.
-

Staff and Patient Feedback: Collection of feedback from staff and patients regarding the improvements in workspaces, cleanliness, and overall hospital experience.
